AGREEMENT - EVALUATION DATA SHARING

Dear Sirs,

The Qualifas organization (members 'list hereunder), within its evaluation activity, wants to optimize the monitoring of the aeronautic, space and defense supplier chain, and solicits **your agreement on the share of the audits/evaluations results in a data base.**

This agreement represents for you a double interest:

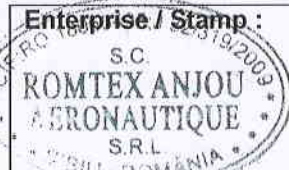

1. it will avoid you having to support successive audits/evaluations of same type by different customers
2. it will show your will of transparency in the process of improving the supply chain

We would be grateful for an early confirmation of your agreement by signing this letter, and propose to address to you a label of transparency, usable on all supports, showing your membership in that program.

Yours faithfully,

Isabelle MATHIEU PERRIN
Office Manager Qualifas
